CARRIAGE HOUSE CAFÉ

The Green Resource Hub of the Finger Lakes is a non-profit organization that aims to expand the regional marketplace for sustainable living through consumer education and workforce development in energy efficiency, green building, green purchasing, and renewable energy.

Please make a donation to the Green Resource Hub to support sustainability-related programming in our community. Donations will go to projects such as home energy audits, efficient light bulbs, the Hub green calendar, the Hub green directory, and sustainability education efforts.

Name _____

Phone _____

E-mail _____

\$ _____ **Audit** Your donation will go toward helping people understand and audit their own energy usage. Means of doing so may include public education on phantom load, on-site consulting, or renting out Watt-meters to local residents to measure electrical plugload.

\$ _____ **Bulbs** Your donation will go toward distributing compact fluorescent light bulbs (CFLs) and related energy efficiency information to people in and around our community. CFLs are typically the easiest way to reduce one's electric bill, but most people are deterred by a lack of clear information, a larger initial expense, or habit.

\$ _____ **Calendar** Your donation will go toward upkeep of the Hub Calendar – our goal is to provide one-stop shopping for sustainability events across the Finger Lakes. The calendar helps groups avoid scheduling conflicts while also making it easier to see what events are going nearby.

\$ _____ **Directory** Your donation will go toward enhancements and maintenance of the Hub Directory, which is a searchable listing of green businesses in the Finger Lakes region. The directory will help residents discover the wide variety of sustainable enterprises that call the Finger Lakes home.

\$ _____ **Education** Your donation will go toward consumer education efforts such as our EEEO program (Energy Efficiency Community Outreach), which provides hands-on education on how to make simple home improvements that conserve resources and save money.

\$ _____ **Go Crazy!** Your donation will go toward keeping the Green Resource Hub of the Finger Lakes working and growing as we pursue our mission to expand the marketplace for sustainable living.

\$ _____ **TOTAL DONATION**

Thank you for your support! Be sure to listen for your name throughout the night to see if you've won a prize.
